Dean Walter Pitman
1364 Gordon Ave.
Peterborough, Ontario

Dear Walter:

Further to our conversation enclosed is a copy of our environmental impact brief on the proposed government policy with regard to environmental assessment. I trust that you will find it to be of interest, especially if you are discussing potential government policy in this area.

Thank you for agreeing to allow your name to stand once again for Director of the Canadian Environmental Law Research Foundation. Although you may find it difficult to attend functions from time to time, your assistance through your column and letters of reference to foundations and agencies are always appreciated.

When you are in Toronto, I would appreciate the opportunity to meet with you personally and to bring you up to date on CELRF and the Canadian Environmental Law Association. Meanwhile, thanks for your continued support.

Yours sincerely,
CANADIAN ENVIRONMENTAL LAW RESEARCH FOUNDATION

Gar Mahood
