CONSEIL DE CONSERVATION DU NOUVEAU-BRUNSWICK

Mr. John E. Low
Environmental Impact Study Group
Canadian Environmental Law Association
Suite 303
One Spadina Crescent
Toronto, Ont. M5S 2J5

March 10, 1975

Dear Mr. Low:

I am enclosing for your interest a copy of a brief that the Conservation Council of New Brunswick recently presented to the New Brunswick Minister of Environment, the Hon. Fernand Dubé. You will note that we made use of the ten fundamental principles necessary in an environmental assessment procedure that were included in the Canadian Environmental Law Association presentation to the government of Ontario.

We have seen many references to your brief on environmental assessment without seeing the brief itself. Since we are expecting to be persuing this subject for some time yet, I should like to take you up on an offer made in your letter of January 14, 1974, to make available the full text of your brief. I believe that it would be very useful for us, and I should be most pleased to have a copy if one is still available.

Yours truly,

T. Richard Tarn,
President.

Encl.
