

June 25, 1979

The Hon. James Auld,
Minister of Energy,
56 Wellesley Street West,
Toronto, Ontario
M7A 2B7

Dear Mr. Auld:

I am pleased to submit our response to "Perspectives on Access to Sunlight". We consider the need for legislation to secure solar access a matter which deserves some priority both to encourage the development of solar energy in Ontario and to ensure a fair and rational method of conflict resolution. We hope you find our response of assistance in your efforts in this regard.

Sincerely,
CANADIAN ENVIRONMENTAL LAW RESEARCH FOUNDATION

John Swalgen,
General Counsel.
