Dear Toby:

Thank you for the report on The Hyde Park Landfill Case.

While the report was requested to provide Environment Canada officials with background on this particularly unique case, the thoroughness of the document in its description will, I'm sure, be benefit to a wider audience. We've already had requests from MOE and Probe to whom copies have been sent. Accordingly, the report will be available to the public on request.

Again, thank you for your excellent work.

Yours truly,

Ron Shimizu
