Dear Toby:

Further to your conversation with my assistant, this letter is to confirm details of the meeting with Assemblymen from the New York State Environmental Conservation Committee.

At present, Assemblymen Maurice Hinchey, Joseph Pillittere and Edward Sullivan have confirmed that they will attend the meeting in Toronto on the morning of Thursday, July 22, 1982, beginning at 10:30 am. at Queen's Park in Committee room #2 (west end of main building).

11:30

In addition to yourself, I have also invited Margherita Howe, Operation Clean - Niagara, Moni Campbell, Pollution Probe, Colin Issacs, Pollution Probe as well as other members of the Environment Task Force.

The discussion will be focused on the effects of New York State chemical pollution on the Canadian environment and how these problems are viewed by Canadian environmentalists and other concerned people. In addition, solutions to these problems will be touched upon. Moni Campbell's book, "Profits from Pollution Prevention: A Guide to Industrial Waste Reduction and Prevention", will be presented to the visiting New York State delegation at a press conference following our meeting. Also, on Thursday afternoon, the Task Force and Assemblymen will tour Anachemia Solvents Ltd. to examine the technological advances they have achieved in the area of waste recovery and re-cycling.

I'd like to take this opportunity to thank you for agreeing to participate in our discussions on July 22. While the New Democratic Party continues to receive little support from the government concerning our calls for action on these issues, we will continue to apply as much pressure as possible.

If you require further information, please contact me.

Yours sincerely,
