475 Riverside Drive
New York, N.Y. 10115
U.S.A.

Dear Sir or Madame:

I am a member of the Public Social Responsibility Unit of the Anglican Church of Canada and The Taskforce on the Churches and Corporate Responsibility, and have just read with great interest the latest issue (January/February 1983) of The Corporate Examiner. I note that a shareholders' resolution is to be brought against Occidental Petroleum, and we would appreciate receiving a copy of the resolution if you have it on file. Any other information that you might have relating to the resolution would also be most appreciated.

The Canadian Environmental Law Association is a public interest environmental law organization. We recently represented two Canadian citizens groups in United States District Court in Buffalo in a matter dealing with the Hyde Park chemical landfill site near Niagara Falls, New York. Occidental's subsidiary, Hooker Chemical, is deeply involved with this site.

Yours very truly,

CANADIAN ENVIRONMENTAL LAW ASSOCIATION

Robert K. Timberg
Counsel
