Ms. Toby Vigod
Canadian Environmental
Law Association
243 Queen Street West, 4th Fl.
Toronto, Ontario M5V 1Z4

Dear Ms. Vigod:

The document listed below is now available for public review at the Environmental Protection Agency (EPA) Public Information Office, 706 Ninth Street, Niagara Falls, New York and at New York State Department of Environmental Conservation (DEC), 600 Delaware Avenue, Buffalo, New York.

-Analytical Report from Occidental Chemical Corporation dated February 1, 1985 regarding Results of Gorge Face Analysis - Liquids.

This document is provided for your inspection to help keep you informed of activities at the Hyde Park Landfill. We welcome your comments.

In addition to the public meeting concerning the Hyde Park Requisite Remedial Technology (RRT) Study scheduled for Tuesday, February 19, 1985 at Niagara University, another public meeting to discuss various topics concerning the Hyde Park Landfill is scheduled for 7:00 p.m., Thursday, March 7, 1985, in Room 127, Dunleavy Hall, Niagara University.

Sincerely,

Matthew J. Forcucci
