Attention: Douglas Hodgson

Dear Mr. Hodgson:

Re: Halton Landfill Hearing

You will have received by Fax, yesterday, a witness statement for Dr. Kerry Rowe's reply evidence with respect to Site F.

With respect to Site D, this letter is to indicate that Dr. Rowe will address two matters arising from CRA's evidence:

- (a) The appropriateness of CRA's use of 1.4×10^{-8} cm/sec. as a design parameter for hydraulic conductivity;
- (b) Mr. Petrie's opinion that it is appropriate to include laboratory as well as field test results in determining the geometric mean of the hydraulic conductivity of the protective till layer.

Yours sincerely,

David Estrin
