Dear Friend:

Recently, the Toronto Environmental Alliance (TEA) launched an exciting new project called Environmentalist Plan Toronto. The goal is to arrive at a vision of how Toronto would look, act, feel and work if environmentalists were to plan and design our City. I met with members of TEA shortly after the project began, and we agreed to pursue this project together with broad involvement from the environmental community.

We'd like to take this opportunity to invite you to join in the process and be part of Environmentalists Plan Toronto.

We have begun this project at an opportune time. I and a representative of TEA have been asked to serve on the Task Force reviewing the "Official Plan" that serve as the design for the City's future. This gives us a chance to have extensive input into the plan as it is being formed. With your help, through Environmentalist Plan Toronto, we can turn the Official Plan into something that really addresses the major issue of planning in the 21st century: the environment.

While the timing of Environmentalists Plan Toronto means that we can influence the direction Toronto takes in the near future, the project will also strive for a vision of the City that looks decades and even centuries into the future. It is our hope that Environmentalists Plan Toronto will produce a comprehensive vision that can be presented as a publication on the shape and future of an Ecological Toronto.

WE INVITE YOU TO BE PART OF THIS VISION  
PLEASE ATTEND OUR FIRST MEETING ON  
MAY 16th, AT 7:00  
COMMITTEE ROOM #2  
2nd FLOOR, CITY HALL

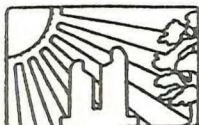

If you have any questions please contact
