# **Great Lakes United**

# MEMORANDUM

TO: Executive Committee Members & MMW

From: Karen Date: 2/22/94

RE: Grant Status Report

Attached you will find a report detailing the status of grants, grant reports and our obligations under various grants, settlements, etc.

Regarding the grant reports. As I mentioned to you over the phone there are five grant reports that have not been filed. The Great Lakes Protection Fund should be filed this week. Tony has written it and I just need to review it and put together attachments and financial information. Reg is working on the Gund grant with help from Bruce Kershner and we expect to have that out on the 28th of February. Sean is pulling together the sections on strategic planning for the Joyce and Mott reports. I will write the remaining portions of those three reports. I hope that I can complete these reports by the end of next week. I must admit there are a lot of loose ends that needed immediate attention that have prohibited me from getting to these reports sooner.

If you have any questions about this memo please give me a call. I would suggest that we continue this type of reporting on at least a quarterly basis so that everyone knows the status of grants. An obvious additional section that is not included in this report are grants that have been submitted and are pending. If you have any suggestions regarding how you would like grant reporting to be conducted, format changes, etc., let me know.

Take care.
