Dear Ms. Grewal:

I am sending you directly the Science Advisory (SAB) report dealing with harmonizing chemical and radiation risk reduction strategies, EPA-SAB-RAC-COM-92-007, dated May 18, 1992.

I was chagrined to hear that it was not sent to you after all this time. I enquired why the Committee Evaluation and Support Staff (CESS) of the SAB had not responded to your repeated requests of four weeks ago, and also of two weeks ago. I learned today that the only file copy of this report had been taken, and there were no more copies in the file.

I obtained a copy of this report from Mrs. Kathleen Conway. She is the Designated Federal Official who coordinated this review. I trust that the enclosed commentary is, in fact, the report that you want. Please call me at any time if you need additional assistance.

Thank you for your patience and persistence.

Cordially,
