

Memo to Paul
CC Rick
From Theresa
February 21, 2006

Re: Matters that need babysitting while I am away.

Feb 28

1. CELA's OPA Supply Mix EBR Submission

I have circulated to you, Rick, Kathy and Jennifer for comment. I will incorporate any feedback I get by tomorrow. Could you ensure that Charlene formats it, puts on letterhead etc. and submits to the Premier and the EBR? I have given her those instructions.

2. CELA's Bill 51 Planning Act / OMB Reform Submission

This is not yet complete but I expect to leave a version for you, Rick, Ramani, Linda Pim and Mark Winfield to look at by the end of day tomorrow. Again, could you ensure that it is formatted, on letterhead and submitted? Charlene will be expecting something from us on this as well.

3. Pembina / Greenpeace / Suzuki EA Opinion

We have a call tomorrow to discuss the full opinion which Rick has completed. Current plan is to release the Generic Plan opinion to the public on March 1st. I will email it again to you and Rick and Jennifer. This will have to be co-ordinated with Mark Winfield, Jose Etcheverry or Morag Carter and Shawn-Patrick Stensil or Dave Martin. We still need to do an executive summary of the generic plan EA opinion for public consumption and I don't know if you or Rick had any changes to the generic plan EA to make. Also a question of what to call it, whether an "opinion" or not – Rick thinks maybe not but I think the clients would prefer to call it an opinion for rhetorical and news purposes.

4. CNSC EA changes

Rick will review this posting on CNSC web site on Thursday and discuss with Shawn Patrick. On my return we can assess what it is we might be able to do about this if anything.

5. Concerned Citizens of Renfrew County

We are in settlement discussions. I have a conference call with the lawyers for SRBT and the Commission tomorrow, after which we will know more clearly the exact process to effect the settlement. Further steps should then be able to wait for my return. In meantime, lawyer for Justice might serve his motion material to intervene, as I discussed with you today. If so, could you look at it, check time lines and start to prepare a response?

6. Bakker Chapter

I have emailed you my changes. This is due Feb. 25th which means that it will need to go in to Karen by Friday. Track changes should be retained when sending it to her. If you add something re the 1988 policy, it's probably ready to go unless you have major concerns with what I have done, or big inspiration to do something else.

7. New Credit

Send generic plan to Donny Cansfield
