November 6, 2006

**RE: Invitation to Participate in the second round of Open Houses for the
Pickering B Refurbishment for Continued Operation Environmental
Assessment**

Ontario Power Generation (OPG) invites you to attend the second round of Environmental Assessment (EA) Open Houses on the potential refurbishment and continued operation of the Pickering B nuclear generating station.

The focus of the second round of Open Houses is to communicate to, and gain feedback from the public on the following information:

- progress to date with respect to understanding project interactions with the environment;
- existing environmental conditions; and
- next steps in the EA studies including the assessment of effects, cumulative effects assessment, and the assessment of effects from accidents and malfunctions.

Community and stakeholder input will be included in the draft EA Study Report to be submitted to the Canadian Nuclear Safety Commission, the authority responsible for this EA under the *Canadian Environmental Assessment Act*.

OPG staff and EA consultants will be available to answer your questions and presentations will be made at the times and locations listed below. Please drop by one of the EA Open Houses and make your views known.

All EA Open Houses will be held from 3:00 to 9:00 p.m., with a presentation at 7:00 p.m.
