Post Skopje - Paula  
phone call w/ Thompson

overview by Molly & George Kupar  
w/ Andy & John Alan on phone.  
weren't tonnes of questions.

Group agreed to carry-on  
from where they were. . . .

David Naly kept referring back  
to the Kupar/NWT position

He was more focused on the  
Industry position. . . .

most offensive In-basin

war in progress - mechanisms  
to impede over time.

as MR

flexibility on In-basin  
rules to halt down and trigger  
(not a default trigger)  
so everybody can have higher

penalty 5 million gallons per day

+ every 5 year die of finding  
as programmes based on standard

Regional Body reports back  
on this

recommendations for  
strengthening

5 year phase in from 10. //

Regional review on In-basin  
Dua notice based on the standard

reasonable use standard out.

Grand coalition not absolute -  
but is there - if there  
is what is there  
future also consider  
sufficient scientific  
evidence hydrologically  
can respect hydrologically

• Conservation -  
need to combine both

Regional Body will analyze  
basin-wide facts. objectives  
full years after spring  
within 2 years each jurisdiction  
voluntary implementation  
goals to revisit if will be  
mandatory. ←

Science manage development  
of a collaborative shall be  
no necessarily by Regional Body  
Indu & cumulative impacts  
grandwater's surface  
best practices

might start 30 day by Friday

placeholder language on First 18th  
Amendment - sharing. F.W.T.  
provide their advice

Kupar content reviews.  
Regional review for diversions  
same

in-basin

tryed to change gate on intake basin  
that would affect . . . . . they have  
with out support  
won. Conservation Quota

with out restoration.  
water conservation

Goals in spring improvement  
Protecting & Restoring
