WHAT IS THE “MAKING THE LINKS” PROJECT?

The “Making the Links” project was a three year interdisciplinary outreach program led by the Canadian Environmental Law Association (CELA) and the Environmental Health Institute of Canada (EHI Canada) with funding from the Law Foundation of Ontario (LFO). The project focused on environmental law and access to justice issues in six Ontario communities. Each community identified – Kenora, Hamilton, Brantford, Cornwall, Windsor and Sarnia – possessed a high pollution burden and incidence of environmental health issues, as well as a high percentage of low income and vulnerable populations.

During the course of the project, our activities were focused on the objectives of increasing community environmental health, promoting engagement in the legal system; enhancing community knowledge of environmental laws and available legal tools; facilitating the sharing of information between the health and legal sectors; and improving the capacity of frontline environmental groups and legal and health service providers to protect their constituents from environmental threats to health.

All of the presentations and resources created throughout the course of the three year Making the Links Project will be posted on our website by early January 2012:
